Consumer Internet Security Solutions

- **ZoneAlarm® Internet Security Suite** is the most complete Internet security solution available today. It includes the revolutionary Triple Defense Firewall technology and integrated antivirus and anti-spyware capabilities and integrated anti-virus and anti-spyware capabilities to protect a PC from hackers, spyware, worms, identity thieves, spam, and much more.
- **ZoneAlarm Pro** secures a PC with Zone Lab's revolutionary Triple Defense Firewall technology, anti-spyware, and advanced identity and privacy protection.
- **ZoneAlarm Anti-Spyware** is the most powerful dedicated firewall-based spyware prevention solution. Includes the Triple Defense Firewall and integrated targeted anti-spyware scanning and removal feature.
- **ZoneAlarm Antivirus** combines an intuitive user experience with powerful security features including the Triple Defense Firewall, SmartDefense Advisor, and virus protection.
- **IMsecure Pro** combines Inbound and Outbound Threat Protection to block malware as well as prevents eavesdropping, impersonation, and ID theft via the IM clients.
- **ZoneAlarm (free)** is the most popular free PC firewall product on the market. Currently, ZoneAlarm defends tens of millions of PCs around the world from hackers.

Recent Innovations:

- **Triple Defense Firewall:** An evolution of our tried and true stateful inspection stealth firewall, our new Triple Defense Firewall barricades the PC and its ports from external attack and makes the PC invisible (via the multi-layered network firewall); prevents spyware and other malicious programs from attacking legitimate programs (program firewall); and prevents spyware and other malicious programs from attacking the operating system (new OSFirewall). - Available in: *ZoneAlarm Pro, ZoneAlarm Anti-Virus, ZoneAlarm AntiSpyware, and ZoneAlarm Internet Security Suite*
- **Anti-Spyware:** Intelligent anti-spyware scanning and removal feature automatically prevents, detects and treats spyware and viruses in one convenient, integrated system to protect the privacy and personal information of our customers. - Available in: *ZoneAlarm Pro, ZoneAlarm AntiSpyware, and ZoneAlarm Internet Security Suite*
- **SmartDefense Service:** Provides real-time updates and new attack protection capabilities for ZoneAlarm products. This Check Point/Zone Labs security service is the brain behind a wide range of services, from SmartDefense Advisor (formerly Automatic Program Advisor) and DefenseNet to Kill Control and virus and spyware tracking, intelligence gathering and policy deployment. - Available in: *ZoneAlarm Pro, ZoneAlarm Anti-Virus, ZoneAlarm AntiSpyware, and ZoneAlarm Internet Security Suite*
- **SmartDefense Advisor:** Automatically passes expert security policy to users, now comes with new Automatic Kill Control to automatically disable any program that attempts dangerous activity.
- **DefenseNet:** An early warning system for new spyware and malware, DefenseNet leverages the community of ZoneAlarm users who can choose to anonymously and automatically share their program policies. Armed with this data, updates can be quickly deployed to protect the millions of ZoneAlarm users from the latest spyware and attacks. - Available in *ZoneAlarm Anti-Virus, ZoneAlarm Pro and ZoneAlarm Internet Security Suite*
